# ENSEMBLES ÉLECTRIQUES KOSMOS

"KOSMOS" IMITATION BURNERS

6", 8", 10", 12", 14"

Galerie 10" coupée à 28 m/m  
10" Gallery cut to 28 m/m

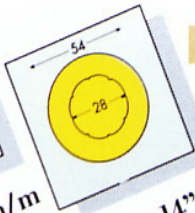

Galerie 10" Normale  
10" Normal Gallery

Galerie 14" coupée 40 m/m  
14" Gallery cut to 40 m/m

Galerie 14" Normale  
14" Normal Gallery

## Pour le passage des douilles :

Les galeries pour ensembles électriques 10" peuvent avoir un diamètre de 28 m/m (Galleries coupées à 28 m/m) ou un diamètre de 20 m/m (Galleries 10" Normales).

*The galleries for the 10" imitation burner can have a diam. of 28 m/m (galleries cut to 28 m/m) or a diameter of 20 m/m (10" normal Galleries).*

Les galeries pour ensembles électriques 14" peuvent avoir un diamètre de 40 m/m (Galleries 14" coupées à 40 m/m pour douille E27) ou un diamètre de 28 m/m (Galleries 14" normales pour douilles E14).

*The galleries for the 14" imitation burner can have a center hole of 40 m/m (14" galleries cut to 40 m/m) for E27 sockets or a diameter of 28 m/m (14" normal galleries for E14 sockets).*

## Les embases:

Elles peuvent être livrées avec clef soudée ou clef à part avec écrous de fixation. Le trou central a un diamètre de 11 m/m.

*The bases can be supplied with soldered key, or key separately with nuts. The center hole has a diameter of 11 m/m or can be of 10 m/m on request.*
